INTERCEPTOR TRENCH WATER BALANCE REPORT - EML-204-93

Enclosed is a copy of the water balance around the ITS. This report was prepared by Environmental Restoration-Surface Water Division using modeling similar to the Master Drainage Plan. The Solar Ponds Program Office will use this report to provide guidance to Waste Operations Management of water levels in the modular tanks, to identify data collection, to validate and improve the model, and to understand ITS hydrology.

If you have any questions, please direct them to R. W. Boyle on 966-6926.
